CHAPTER I EXECUTIVE SUMMARY

(a) About the Industry:

Pharmaceutical is the core of Bangladesh's healthcare sector and serves as one of the most important manufacturing industries. The pharmaceutical industry is one of the most developed technology sectors within Bangladesh. Manufacturers produce insulin, hormones, and cancer drugs. This sector provides 98% of the total medicinal requirement of the local market. The industry also exports medicines to global markets, including Europe. Pharmaceutical companies are expanding their business with the aim to expand the export market. The pharmaceutical sector of Bangladesh has been transforming and evolving since the early 80s. The sector has grown from strength to strength over the last 4 decades. Since this is a technology and knowledge-based sector; the journey was not an easy one for LDC faced with enormous economic challenges. Now, Bangladesh proudly stands alone as the only LDC that has a well-developed pharma sector.

The industry continues its strong research orientation in generic formulation development and has already proven its skills with successful development of specialized, high-tech formulations, which are very difficult to imitate. Leading companies have focused on specialized dosage delivery systems to create strong differentiation and successfully developed metered dose inhaler (MDI), dry powder inhaler (DPI), lyophilized injectable, sterile ophthalmic, prefilled syringes, oral thin films, multi-layer tablets, biological products, including insulin, vaccines etc. Pharmaceutical industry is a knowledge-based industry. With the growing increase of qualified

personnel, technical expertise and formulation excellence has grown the acceptance of finished pharma products overseas. By nature, Bangladesh pharmaceutical industry is a branded-generic market. Now the pharmaceutical sector of Bangladesh is the second largest export-earning sector after RMG. The country has built a solid base for this sector to emerge as a potential sector in the upcoming days to support our economy. Bangladesh manufactures almost all types of medicines and fulfills the demand of 160 million people. The country manufactures around 98% medicines domestically and imports the remaining 2.0%. It contributes about 1.83% of the total GDP and the Pharmaceutical Industry of Bangladesh has come a long way in the past four decades and has already established itself in domestic as well as international market. The industry contributes second largest industry in terms of contribution to government's exchequer. One of the Pharmaceutical leaders said, "We have already a strong base in domestic market. We need to have presence in global markets, but the government policy is not in favor of the industry." In that meeting another leader opined that, "The sector people have to be innovative and focus should be on formulation of generic products having a market worth \$112 billion.

CHAPTER-VI DESCRIPTION OF THE ISSUER

(a) SUMMARY:

(i) The summary of the industry:

The pharmaceutical industry in Bangladesh is one of the most developed technology sectors within Bangladesh. Manufacturers produce insulin, hormones, and cancer drugs. Pharmaceutical Industry is a knowledge-based industry. With the growing increase of qualified personnel, technical know-how and formulation excellence has led to an acceptance of finished pharma products overseas. By nature, Bangladesh Pharmaceutical Industry is a branded-generic market. Now the pharmaceutical sector of Bangladesh is the second largest export earning sector after RMG. The country has built a solid base for this sector to emerge as a potential sector in the upcoming days to support our economy. Pharmaceutical industry is growing very fast meeting 98% of domestic demand and posting a 27% growth in export earnings. Bangladesh's pharmaceutical sector is expected to grow at 15 percent for the next five years riding on the expanded domestic market as well as new export frontiers, according to new research. The Bangladesh pharmaceutical industry is heavily retail oriented with the bulk of distribution undertaken by the companies themselves leaving wholesalers to play limited role. Here, Doctors play the central role as the customers with patient as the end user. So, Rx plays as the game changer of the market competition. And all the marketing activities in Bangladesh are encircled with doctors with personal selling through medical reps and some through innovative approach to reach to other customers like chemists, clinics, hospitals, nurse.

The industry continues its strong research orientation in generic formulation development and has already proven its skills with successful development of specialized, high-tech formulations, which are very difficult to imitate. Leading companies have focused on specialized dosage delivery systems to create strong differentiation and successfully developed metered dose inhaler (MDI), dry powder inhaler (DPI), lyophilized injectable, sterile ophthalmic, prefilled syringes, oral thin films, multi-layer tablets, biological products, including insulin, vaccines etc. Now Asiatic Laboratories Ltd., a leading growth driven pharmaceutical company of Bangladesh. Imbibed with more than 20 years of professional experience, expertise and market presence with high standard moral ethics and manufacturing excellence complying with WHO cGMP norms and ISO 9001:2008 principle in practice, it gains name and fame among the healthcare professionals. Asiatic is built on Total Quality Management (TQM) having state-of-the-art technology in our plant to produce more than 200 lifesaving medicines of different therapeutic groups with a wide range of dosage forms. In Asiatic, we believe **"Quality is everyone's responsibility"** especially when the health is a prime concern having our motto **'your health partner'** in mind.

(vi) Details of Credit Rating:

a) The names of all the credit rating agencies from which credit rating has been obtained:

Name of The Credit Rating Agencies	Rating Date
WASO Credit Rating Company (BD) Limited	05 October, 2021

b) The details of all the credit ratings obtained for the issue and the issuer:

CREDIT RATING STATUS		
Credit rating by	WASO Credit Rating Company (BD) Limited	
	Entity Rating	
Rating	Long term	Short term
	A3	ST-3
Outlook	Stable	
Validity	04.10.2022 for long term rating and short-term rating	

c) The rationale or description of the ratings (s) so obtained, as furnished by the credit rating agency(s)

WCRCCL has assigned 'A3' (pronounced as Single A Three) rating for the Long Term and 'ST-3' (pronounced as Short Term Three) rating for Short Term to Asiatic Laboratories Limited (hereinafter referred to as 'ALL' or 'The Company') based on its financial and other relevant qualitative and quantitative information up-to the date of the rating issuance. WCRCCL has also assigned "blr A3" (pronounced as Bank Loan Rating Single a Three) rating to the long-term loan outstanding and "blr ST-3" (pronounced as Bank Loan Rating Short Term Three) rating to the aggregated short-term limit. The above ratings have been assigned based on the fundamentals of the company which include experienced and proactive management, increased trend of revenue, sponsors have related experience, moderate regional diversification, moderate diversified product portfolio, low leverage position in the capital structure, good interest coverage position, comfortable security arrangement, presence of fire insurance policy, good infrastructural arrangement and satisfactory banking relationship.

However, the above factors are constrained to some extent by average disclosure in the financial statement, market saturation or high competition, stressed liquidity position with long cash conversion cycle, price volatility of the raw materials, high inventory pile-up affecting working capital. The long-term rating implies that the company rated upper medium grade and subject to low credit risk. The short-term rating implies that the company has an acceptable ability to repay short-term debt obligations from internal sources. However, it is expected to rely on external sources of committed financing due to downturn in economic or industry circumstances. WCRCCL also viewed the company with "Stable" outlook and believes that ALL will be able to maintain its good fundamentals in the foreseeable future.

d) Observations and risk factors as stated in the credit rating report:

RISK FACTOR ANALYSIS

OPERATIONAL RISK

Maintaining a decontaminated premise along with temperature and humidity are the most critical factors for the company. If such environment is disturbed, the quality and effectiveness of the medicine can deteriorate significantly.

MARKET RISK

The market of pharmaceutical products is highly competitive in Bangladesh with several big players and many small and medium companies competing for market share. The top 20 players dominate the major portion of the market, holding 86.33% market share, remaining 13.67% market share to other existing companies. Additionally, the pharmaceuticals industry because of its importance in the economy is continuously monitored and guided by the government providing different supports. However, the market potential for the industry is still huge as many of the companies lacks proper R&D facilities and investments.

COMPLIANCE RISK

The Directorate General of Drug Administration (DGDA) is drug regulatory authority of Bangladesh, which is under the Ministry of Health and Family. DGDA regulates all activities related to import and export of raw materials, packaging materials, production, sale, pricing, and license registration of all kinds of medicine. The National Drug Policy (2005) states that the WHO’s Current Good Manufacturing Practices (CGMP) should be strictly followed and that manufacturing units will be regularly inspected by the DGDA. Any violation of the rules and regulations or standards set by the authorities would bring adverse effect upon Asiatic Laboratories Limited as failure to ensure CGMP and section 15(2) of The DRUG (Control) Ordinance, 1982, can lead to the cancellation of the company’s Drug Manufacturing License.

QUALITY CONTROL RISK

The quality of medicines can highly influence the marketability of the pharmaceuticals. Any glitch in quality can harm the consumer of the medicine, which would act as a negative marketing factor and destroy the market reputation of the company. As a result, the company has to be very careful about the quality of the products.

INTEREST RATE RISK

The interest rate is volatile in Bangladesh financial sector because of shortage of free cash flow in banks or financial institutes. However, ALL has taken loan from ONE Bank Limited, Hajj Finance Limited and Fareast Finance & Investment Limited. Therefore, the change in the interest rate has significant impact on the interest rate risk for this company.

POLITICAL RISK

All types of business activities always remain in positive trend when there is political stability in the country. A country like Bangladesh is always on risk due to political instability and disruption. Therefore, the company always has the similar some political risk as it faced by the other industry in similar footing.

MARKET FOR SUCH PRODUCT:

The company sells their product at Hospitals and Pharmacies around Bangladesh as wholesaler and retailer through their Medical Representative.

LOCAL MARKET

Present market in Bangladesh is very much favor of Pharmaceuticals. Daily increasing of medical institutions, hospitals etc. are a good indicator for the future market. ALL conduct their marketing activities is all over Bangladesh. Presently, due to maximum medical institutions, Kishorganj, Sylhet, Rangpur, Khustia, Dinajpur & Chittagong are most demanded area of ALL.

PAST TRENDS AND FUTURE PROSPECTS REGARDING EXPORTS AND LOCAL MARKET:
Past Trend:

Last 5 years' sales of Asiatic Laboratories Limited are as follows:

Financial Year or Period	Revenue (Amount in Tk)
30 June 2021	1,451,256,870
30 June 2020	1,326,364,875
30 June 2019	1,398,166,020
30 June 2018	1,281,230,798
30 June 2017	1,196,908,375

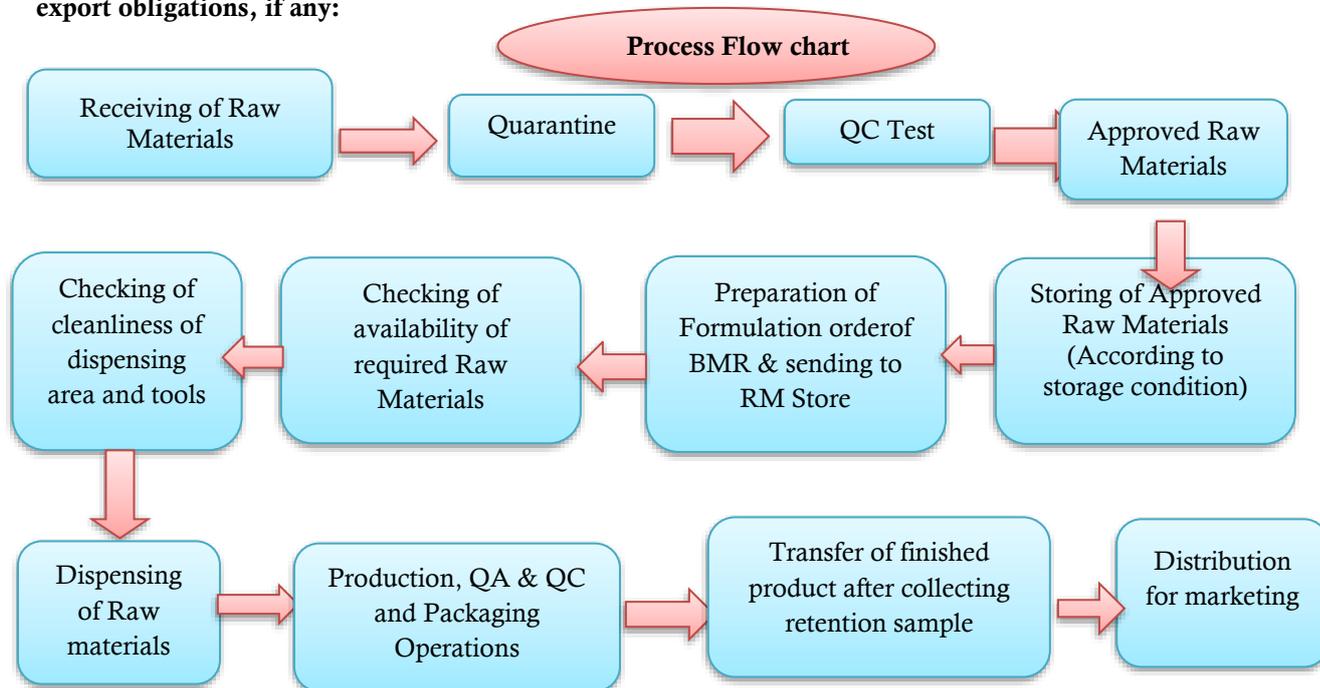

FUTURE PROSPECTS:

Bangladesh is the eighth most populated country in the world. Although Nearly 32.5% of the population of Bangladesh lives below poverty level but it has 31st highest economic growth worldwide, with a 6.2% average annual increase in gross domestic products. In Bangladesh, Cancer is the sixth leading cause of death with 10% of all mortality. Based on two hospital-based cancer registries, approx. 66% of the cancer patients are found within the age range of 30 to 65 years, which is the main work force structure of the country. Breast, esophageal and cervical cancers are the most common incidence in Bangladesh. Among them lung, esophageal and pharyngeal cancers accounts for the highest rate of cancer related mortality in our country. It is considered that Bangladesh has several nutritional health hazards, which are likely contributing to the current cancer burden. Millions of people in Bangladesh have been exposed to arsenic, a well-known carcinogen, due to the contamination of ground water. Carcinogens in food supply, with the use of formalin in several foods and DDT (Dichloro-Diphenyl-Tricolor Ethane) in dried fish and Consuming suboptimal amount of nutrition are also a major concern. Considering this it is estimated that the incidence of cancer cases will rise to be doubled by 2035. The anti-cancer drug market in Bangladesh is growing at 20 percent a year due to an alarming rise in cancer patients. At present, domestic market size of oncology, drugs would be of around Tk. 2.5 billion annually. Locally produced drugs are meeting 70% of the country's demand, while the remaining 30% percent is met through imports. The locally produced anti-cancer medicines are at least 20-30 percent cheaper than the imported ones, which are why local pharmaceutical companies are widening the production of anticancer drugs capturing half of the market share. Currently only few local companies are manufacturing anticancer drugs, which clearly indicate that there, is huge opportunity left in this market. Cancer has a widespread prevalence not only in Bangladesh but also worldwide which has led to rise in demand of cancer drugs. Therefore, besides local market, anticancer drugs have a huge opportunity for global market. It is estimated that the global anticancer drug market will reach to double from 2019 to 2025, growing at a CAGR (Compound Average Growth Rate) of 7.9% from 2019. High market growth potential in developing countries, rise in the number of innovative products and surge in cancer research are expected to create new opportunities for the market. High cost related with anticancer drug in global market can create a huge opportunity for export of anticancer drug from Bangladesh. On the other hand, Steroid product including systemic hormone, total market size is about BDT.300.00crore. In Bangladesh, rate of using steroid products is very much high to control severe allergic reaction. In addition to this, oral & injectable hormonal products have highest opportunity in Bangladesh for the treatment of infertility & other diseases.

MARKET OPPORTUNITIES IN BANGLADESH:

Pharmaceutical is the core of Bangladesh's Healthcare sector and serves as one of the most important manufacturing industries. Contributing about 1.83% of the total GDP, Pharmaceutical Industry of Bangladesh has come a long way in the past four decades and has already established itself in domestic as well as international market. Now Asiatic Laboratories Ltd., a leading growth driven pharmaceutical company of Bangladesh, imbued with more than 15 years of professional experience, expertise and market presence with high standard moral ethics and manufacturing excellence complying with WHO cGMP norms and ISO9001:2008 principle in practice, it gains name and fame among the healthcare professionals. Asiatic is built on Total Quality Management (TQM) having state-of-the-art technology in our plant to produce more than 200 lifesaving medicines of different therapeutic groups with a wide range of dosage forms. In Asiatic, we believe "Quality is everyone's responsibility" especially when the health is a prime concern having our motto ' your health partner' in mind. Asiatic is manufacturing and marketing anti-hypertensive, lifesaving antibiotics and ophthalmic drugs in Bangladesh as well as abroad. As Asiatic is well reputed to our healthcare professionals due to their never compromising belief with quality, there is a huge opportunity for Asiatic Laboratories Limited to set up an anticancer manufacturing plant to supply in the local market as well as at abroad. 1. Unusual or infrequent events or transactions including unusual trends because of business activity, unusual items of income, change of accounting policies and discretionary reduction of expenses etc.

There are no unusual or infrequent events or transactions including unusual trends because of business activity, unusual items of income, change of accounting policies and discretionary reduction of expenses etc.

2. Significant economic changes that materially affect or are likely to affect income from continuing operations:

There are no significant economic changes that materially affected or are likely to affect income from continuing operations.

3. Known trends or uncertainties that have had or are expected to have a material adverse impact on sales, revenue or income from continuing operations;

Other than matters as described in the "Risk Factors" and "Plan of operation and discussion of Financial Conditions" of this prospectus, there are no known trends or uncertainties that have had or are expected to have a material adverse impact on revenues or income of the Company from continuing operations.

4. Future changes in the relationship between costs and revenues, in case of events such as a future increase in labor or material costs or prices that will cause a material change are known;

We are aware of the fact that the future is always uncertain that affect business and plan as well. Therefore, in the future cost of labor or materials price may be changed. However, revenue is always adjusted and follows the trend in line with production cost. Hence, any change in cost will be reflected in the sales price. Moreover, we have a strong influence over the market to set the trend as well.

5. The extent to which material increases in net sales or revenue are due to increased sales volume, the introduction of new products or services or increased sales prices:

Any material increases in the sales volume, an increase in selling price as well and the introduction of new products have a significant impact on the net sales and revenue of the Company. Last five years the company has introduced some new products and increased its production capacity. The Management of the Company expects that there would have a positive and significant impact on the revenue and sales volume with the introduction of new machinery in its production process. It is also expected that due to increased competition in the market where the company operates, the revenue of the Company may be affected adversely due to a decrease in selling price. If the new machinery are added then the production capacity of the products will be almost double, then the revenue of the Company will be increased to have regular growth.

(B) SWOT ANALYSIS

SWOT analysis is a process that identifies an organization's strengths, weaknesses, opportunities and threats. Specifically, SWOT is a basic, analytical framework that assesses what the organization can and cannot do, of factors both internal (the strengths and weaknesses) as well as external (the potential opportunities and threats).

Strengths:

1. **Technology:** The Company has latest tools and technologies to support production.
2. **Strong Management:** The Company has good management to run the company efficiently.
3. **Product line variety:** The Company's product line has variety in form.
4. **Skilled Workforce:** The Company has skilled human resources to manage and operate the business.

Opportunity

1. **Industry Performance:** Pharmaceutical industry depends on organic chemical. Chemical industry is very competitive and fragmented. Therefore, supplier switching is easier.
2. **Reasonable Product Price:** Consumers do not bother about the pricing, as the medicine is lifesaving product.
3. **Cheap Labor:** Labor wages is favorable comparing to that of other countries.

Weaknesses:

1. **Low Financial Position:** Company needs more finance to be competitive over its rivals.
2. **Innovation:** Innovative effectiveness is low due to the lack of the sophisticated equipment, lack of the capital, lack of the skilled work force, and the lack of the professionals in our country.

Threat

1. **Intense Competition:** There is high rivalry among the competitors to get the market share as maximum as possible.
2. **Shortage of Power:** lack of opportunity to supply emergency power.

Reasons for Fluctuation

REVENUE/SALES

The company installed modern machinery in the last five years in order to increase production capacity, As a result, the company enjoyed a steady growth in the last five years. The Company's sales revenue sustained over the period and ensured a substantial increase in the years 2017 to 2021. One of the main reasons behind this was the increasing demand for the company's product as well as industry support. In addition to that, the capacity utilization is also increased due to management efficiency.

OTHER INCOME:

Other income changes due to a change in interest, wastage sales & others.

TOTAL INCOME

In fact, the combined effect of revenue and other income is reflected in the total income. Since revenue is increased, total income is increased naturally.

COST OF MATERIAL

Asiatic Laboratories Limited's cost of material is in line with revenue and capacity utilization.

FINANCE COST AND BANK CHARGE

The company has taken short term and long-term loan from a bank for importing raw materials, procuring new machinery as well as some working Capital maintenance. So the finance cost and bank charges have increased and the trend is relevant to the production and also consistent with the revenue.

DEPRECIATION AND AMORTIZATION EXPENSE

We think that, the increase of depreciation is relevant to the procurement and installation of machinery. No significant changes have occurred.

OTHER EXPENSE

Over the year's trend of other expenses are consistent.

CHANGES IN INVENTORIES

There has been an increase of installed capacity and sales volume over the years. The demand for our products is also increasing. So, we have to maintain a sufficient amount of inventory in order to meet the sales order. This inventory has been increasing year to year especially from 2017 to 2021.

NET PROFIT BEFORE/ AFTER TAX

The Company efficiently managed its administrative expenses. As a result, the growth of net profit before and after tax is consistent with the growth of the revenue. No unusual changes have occurred during the last five years on the above matters.

EPS

Earnings per Share are properly calculated using a weighted average number of ordinary shares for each year.

(d) Known trends demands, commitments, events or uncertainties that are likely to have an effect on the company's business:

There are no known trends demands, commitments, events or uncertainties that are likely to have an effect on the Company's business except the following:

CHAPTER-XX

RISK FACTORS AND MANAGEMENT'S PERCEPTIONS ABOUT THE RISKS

The factors described below may conceivably materially affect investors' decisions as an investment in equity shares involves a high degree of risk. The company is operating in a globally competitive industry involving both external and internal factors having direct as well as indirect effects on the investments. Investors should carefully consider all of the information in this prospectus, including the risk factors, both external and internal, and management perceptions enumerated hereunder before making an investment decision. If any of the following risks actually occur, their business, results of operations and financial condition could suffer, the trading price of their equity share could decline, and investors may lose all or part of their investment.

1. Internal risk factors:

a) Credit Risk;

The risk of loss of principal or loss of a financial reward stemming from a borrower's failure to repay a loan or otherwise meet a contractual obligation. Credit risk arises whenever a borrower is expecting to use future cash flows to pay a current debt. This is the risk of default on a debt that may arise because of default by the borrower to pay the loan. In operating, any business there is always credit risk lies in the business.

Management Perception:

Management has a credit policy in place and exposure to credit risk is monitored on an on-going basis. To mitigate the credit risk, the management of the company follows robust credit control and collections policies. The company has dedicated credit collections team.

b) Liquidity Risk;

Liquidity risk is the risk that the company will not be able to meet its financial obligations as they fall due. The company's approach to managing liquidity (cash and cash equivalents) is to ensure as far as possible, that it will always have sufficient liquidity to meet its liabilities when due under both normal and stressed conditions without incurring unacceptable losses or risking damage to the company's reputation. Typically, the company ensures that it has sufficient cash and cash equivalent to meet expected operational expenses including financial obligations through the preparation of the cash flow forecast with due consideration of time line of payment of the financial obligation and accordingly arrange for sufficient fund to make the expected payment within due date. In extremely stressed conditions, the company may get support from the related company in the form of short term financing.

Management Perception:

Effective liquidity risk management requires both a top-down and a bottom-up approach. Strategy, principles and objectives are set at board and management levels. Asiatic Laboratories Limited conducts liquidity management in a manner that maintains stability and flexibility in day-to-day funding activities. Our liquidity risk management starts by managing daily payment of Cheques, daily cash inflow and outflow, maturity of deposits and our access to other funding sources as and when required.

c) Risk associated with the issuer's interest in subsidiaries, joint ventures and associates;

Right now, Asiatic Laboratories Limited has no subsidiaries, joint ventures and associates' concern.

Management perception:

The Company does not have any interest in subsidiaries, joint venture and associates' companies. So, there are no such possibilities of arisen risk in this respect.

d) Significant revenue generated from limited number of customers, losing any one or more of which would have a material adverse effect on the issuer;

There is risk involved in having a limited number of customers and losing that particular customer has a negative impact on company's sales and Cash flow as well as Pharmaceuticals sector.

Management Perception:

The Company is always keen to find out new buyers, which boost up the sales. We are not dependent on any particular or limited number of customers to operate our business.

- e) **Dependency on a single or few suppliers of raw materials, failure of which may affect production adversely;**
Interruption in raw material supply may impeded of smooth production process.

Management Perception:

The Company is not depended on a single or few suppliers of raw materials. Asiatic Laboratories Limited has a good number of vendors for each ingredient and services. The company has more than three approved vendors. It uses to conduct vendor audit and concerned professionals are very conscious regarding the vendor issue. Further, we assume that sourcing of raw material would be comparatively easier in times to come as due to globalization.

- f) **More than 20% revenue of the issuer comes from sister concern or associate or subsidiary;**
Having 20% revenue generation from sister concern or associated or subsidiary makes issuer dependent on other companies. Hence, there is dependency risk Revenue would be concentrated if it comes from sister concern or associate or subsidiary company.

Management Perception:

As the Company has no associate or subsidiary and no sales with any other sister concern.

- g) **Negative earnings, negative cash flows from operating activities, declining turnover or profitability, during last five years, if any;**
Last five years' results regarding earnings, cash flows from operating activities, turnover or profitability are very important to predict future performance of the company.

Management Perception:

The company does not have any negative earnings, negative cash flows from operating activities, declining profitability, during last five years.

- h) **Loss-making associate or subsidiary or group companies of the issuer;**
The Company may expose to risk of contagion, which refers that the financial problem, especially insolvency, of one member of a group will bring about the deterioration in the condition of all members.

Management perception:

We do not have any investment in a subsidiary, associates or group companies.

- i) **Financial weakness and poor performance of the issuer or any of its subsidiary or associates;**
Financial performance has a material impact on the sustainability of the Company as going concern.

Management perception:

The Company's net profit after Tax and other business performance indicators shows increasing trend due to the management dedication and suitable strategic action to face competition in the industry. Current and quick ratios are also in favor of the Company considering the industry. The increasing trend Debt to Equity ratio means that the company is currently dependent on debt capital. However, issuance of fresh capital and repayment of loan shall allow the company to enjoy significant growth in net profit.

- j) **Decline in value of any investment;**
Investment value might rise or fall because of market conditions (market risk). The corporate decision, such as whether to expand into a new area of business or merge with another company, can affect the value of the investment.

Management perception

We do not have any investment.

- k) **Risk associated with useful economic life of plant and machinery, if purchased in second hand or reconditioned;**
There is obsolesces risk relating to plant & Machinery. If the machinery is purchased from secondhand or reconditioned there is high risk relating to the profitability of the company.

Management Perception:

Asiatic Laboratories Limited uses authentic patented machinery for overall operation hence; moreover there all machineries are fully covered with service warranty and insurance. Expert technicians of the Company or manufacturer are solving any disruption with the machine.

- l) Adverse effect on future cash flow if interest free loan given to related party or such loans taken from directors may recalled;**

There is an interest burden on the company if the company gives Loan to the director or related party other excluding Interest if the money taken as loan. On the other hand, if such loan is taken from a related party or Director there will have a negative impact on the cash flows to pay off the loan.

Management perception

No unsettled receipt and payment in case of related party transaction. No director was given to or taken loan from the Company. Therefore, no risk shall arise or possibilities to arise in the future.

- m) Potential conflict of interest, if the sponsors or directors of the issuer are involved with one or more ventures which are in the same line of activity or business as that of the issuer and if any supplier of raw materials or major customer is related to the same sponsors or directors.**

Conflict of interest between the issuer and its suppliers or major customer arise due to common management may create an impediment in the day-to-day business operational process.

Management perception

No sponsor or director hold any position or own any stake in the business of its supplier or customer. Therefore, no conflict would be arisen in this respect.

- n) Related party transactions entered into by the company those may adversely affect competitive edge;**

In many cases related party transaction is undertaken in the course of the normal business of an entity, in view of the nature of related party relationships and transaction they may carry a higher risk about the ability of the Company to continue in business as a going concern- if the entity's interest is constantly subordinated to that of related party.

Management perception

The Company provides adequate disclosures in the audited financial statements, which is sufficient about its related party transaction. The above disclosure is presented in true and fair view of the company's transaction with the related party. Therefore, there are no such possibilities of arise of conflict in this respect.

- o) Any restrictive covenants in any shareholders' agreement, sponsors' agreement or any agreement for debt or preference shares or any restrictive covenants of banks in respect of the loan- credit limit and other banking facilities;**

The future business process or revenue may hinder by any such restrictive covenants stipulated in the agreement with shareholders, with the sponsor or any loan agreement with the bank or financial institutes.

Management perception

Asiatic Laboratories Limited is always aware of terms and conditions including any type of restrictive covenants before entering in to and signing agreements. There are no restrictive covenants in any shareholders' agreement, sponsors' agreement or any agreement relating to debt or preference shares or any restrictive covenants of banks in respect of loan or credit limit and other banking facilities.

- p) Business operations may be adversely affected by strikes, work stoppages or increase in wage demands by employees;**

Pharmaceutical industries operate by workers and management with mutual understanding. Owners are always concern about the worker's demand.

Management Perception:

The management of the Company always believes that employees are the main strength of a concern and if employees have job satisfaction, then they will give their best effort to perform their respective duties. Asiatic Laboratories Limited is a profitable entity and the management of the Company provides competitive package to employees and offer them different benefits. However, employee unrest like strikes, work stoppages or increase in wage demands is a part of business and Asiatic Laboratories Limited is always well aware of managing labor unrest efficiently. The Company has different incentive packages for employees so that they can be beneficial to such package.

- q) Seasonality of the business of the issuer;**

Revenue of the company would be affected if the business is seasonal or if the company is not doing business over the year.

Management Perception:

There is significant seasonal variations-aspect on the company's business. Therefore, the management takes adequate measures as to cope with the seasonal variations.

- r) **Expiry of any revenue-generating contract that may adversely affect the business;**
The revenue would be embraced if any contract for which revenue generated had expired.

Management Perception:

There is no such contract for which the future revenue would be embrace.

- s) **Excessive dependence on debt financing which may adversely affect the cash flow:**
The company may expose to a high degree of risk and its future cash flow from operation shall be squeezed due to financial expenses.

Management Perception:

Though there are some advantages of debt financing, it causes increased financial expenses and creates excessive pressure on free cash flow. In case of Asiatic Laboratories Limited, dependence on debt financing is being reduced and the debt-to-equity ratio of the Company is declining. Presently, the Company has given more attention to equity financing and strives to go to public.

- t) **Excessive dependence on any key management personnel absence of whom may have adverse effect on the issuer's business performance;**
Key Management personnel have a key role in the organization for the smooth operation of the company. If key management personnel turnover is high, that has an adverse impact on organizational day-to-day activities.

Management perception:

Since inception of the Company, the employee rotation rate is low. The organizational structure is well organized in such a way that any key management person if not in job that's shall have no impact on Company's overall performance as other team members of his nearest position capable of taking the responsibility.

- u) **Enforcement of contingent liabilities, which may adversely affect financial condition;**
Contingent liabilities are likely to have a negative impact on a company's stock share price because they threaten to reduce the company's assets and net profitability. The extent of the impact on share price depends on the estimated probability of the contingent liabilities becoming actual liabilities.

Management Perception:

The Company does not have any other contingent liabilities, which may adversely affect the financial condition.

- v) **Insurance coverage not adequately protect against certain risks of damages;**
The Company shall expose to significant loss if its assets are not properly covered by insurance.

Management Perception:

The company has different insurance coverage for all the relating issues that are risky to operating business. The Company diversifies the risk of damage of its assets by taking insurance policies. All fixed assets of the Company are under insurance coverage.

- w) **Absence of assurance that directors will continue its engagement with Company after expiry of lock in period;**
The company may expose to certain risk to operate its day-to-day business operations if the current director's engagement shall not continue after the expiry of the lock-in period.

Management perception:

As the directors of the Company is owner, so there is reasonable guarantee that they will continue after the lock in period.

- x) **Ability to pay any dividends in future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditure:**
Any future dividend payment depends on the future revenue generation. Any negative earnings in the future shall be hindered future financial stability of the company.

Management Perception:

Asiatic Laboratories Limited is a profitable entity over long period, which is in uptrend, and it has sufficient profit in present capacity to pay dividend. Besides, its cash flow is positive with good condition, EPS is in growth, has working capital surplus and return on equity is in positive growth. After going to IPO, it will repay debt of good amount and fulfill requirement of capital expenditure requirement and expand its business to meet increased market demand of its product, which will decrease financial expenses and increase the profitability. As a result extra cash will be generated to pay more dividends in future.

y) History of non-operation, if any and short operational history of the issuer and lack of adequate background and experience of the sponsors;

History of non-operation indicates weak operational management of the Company. Non-operation leads to negative cash flow, incurring of losses and bankruptcy in worst-case scenario.

Management Perception:

As a manufacturer, Asiatic Laboratories Limited take their operation very seriously. They know, if the operation is stopped for one day that can hamper supply to their customers. In any situation, they do not compromise with their operation. The company started commercial operation from 1998 and they are proud to state that the company has never been non-operative until date. Considering the pharmaceuticals industry at world perspective, our sponsors have adequate background and experience. We have own power supply back up and other required support for uninterrupted smooth operation.

z) Risks related to engagement in new type of business, if any;**Management Perception:**

Asiatic Laboratories Limited has no new business involvement rather than increased production capacity by introducing new and advanced modernized machineries in the factory. Therefore, there is no possibility to occur such type of risk.

aa) Risk in investing the securities being offered with comparison to other available investment options;

The Company would be exposed off potential financial distress if return on invest is low compare to alternative investment options they have.

Management perception:

Asiatic Laboratories Limited is a growing and profitable Company in the sector of Pharmaceuticals in Bangladesh. The demand of Pharmaceuticals is increasing day by day at local, regional and foreign market as well. The company is efficient with experienced management and well-trained work force with satisfactory skills and knowledge of their product and business. Therefore, it is not risky in investing securities in Asiatic Laboratories Limited with comparison to other available investment options.

bb) Any penalty or action taken by any regulatory authorities for non-compliance with provisions of any law;

The company shall have a risk to expose of eroded its brand name and goodwill in case of penalty or action taken by the regulatory authority.

Management Perception:

The Company did not expose to any such penalty from its inception. Therefore, the management of the Company alleged that there is little scope of arising such risk in near future. Therefore, the management of Asiatic Laboratories Limited believes that it is highly unlikely of any penalty or any regulatory authorities for non-compliance with provisions of any law took action.

cc) Litigations against the issuer for Tax and VAT related matters and other government claims, along with the disclosures of amount, period for which such demands or claims are outstanding, financial implications and the status of the case;

Any litigation in terms of unsettled tax, VAT or any other Govt. claim may hamper business operation of the Company as well as may create future potential financial losses.

Management perception

The Company has no unsettled tax or VAT cases against which litigation was made in court. All tax liability was settled. Again, the Company always maintain tax provision for settle any tax liability if impose by NBR.

dd) Registered office or factory building or place of operation is not owned by the issuer;

If office and factory location is not own by the Company business operation may hamper.

Management Perception:

The Registered office and factory building or place of operation both are owned by the issuer. Therefore, the management perceives that there is no risk exposed to registered office or factory building or its place of operation.

ee) Lack of renewal of existing regulatory permissions- licenses;

Non-renewal of license may hamper day-to-day business operation of the company.

Management perception:

All of the regulatory permission and licenses are kept up to date and duly renewed time to time for smooth operation & production. There is no such issue relating to lack of existing regulatory permission/licenses.

ff) Failure in holding AGM or declaring dividend or payment of interest by any listed securities of the issuer or any of its subsidiaries or associates;

There may have a legislative impact on the business operation of any Company by any judgment of Honorable High Court in case of failure of any listed company of the group for not comply with the state laws such as The Companies Act 1994 or payment of dividend to the shareholders in due course.

Management perception:

Asiatic Laboratories Limited has no listed securities or any of its subsidiaries or associates. Hence, this risk is not applicable for the Company.

gg) Issuances of securities at lower than the IPO offer price within one year;

If the issuer was issued share at lower than the IPO offer price within one year, there have possibilities to arise misperception about IPO price.

Management perception:

The above-mentioned required information will be furnished after determination of the cut- off price.

hh) Refusal of application for public issue of any securities of the issuer or any of its subsidiaries or associates at any time by the Commission.

Any refusal of application for public issue of any securities of the issuer may hinder confidence of the Company or convey negative impression about the financial status to the shareholders

Management perception:

Such cases did not happen for our company or holding or sister concerns at any time by the Commission. We expect it will not be happened in future.

2) External risk factors may include among others:**a) Interest rate risks;**

Interest rate risk is associated with the fluctuations in market interest rates which cause a company's cost of debt to increase changes in the Government's monetary policy also tend to increase the interest rates. The high rate of interest may adversely affect the operating results and financial performance of the company with additional financial charges and squeezes the profit of the company.

Management Perception:

The management of the Company is always aware of the interest rates at which the debts of the Company are being financed. Management finances both long term and short-term funds at competitive rates. The Company has been repaying borrowed funds on a continuous basis to reduce such interest rate risk. The present rate of interest is negative which is favorable for the company.

b) Exchange rate risks;

In many cases, the Company depends on imported raw materials. For this reason, Asiatic Laboratories Limited has to face foreign currency risk. Unfavorable volatility or currency fluctuation may affect the profitability of the Company.

Management Perception:

The company receives the entire export proceeds in foreign currency and makes the majority of the import payments in foreign currency as well. For a given depreciation of Taka against a particular foreign currency like US Dollar, the import payment and export proceeds will both be higher in terms of Taka. In the case of an appreciation of Taka against the same currency, the opposite will occur. Hence, the company has a natural hedge against exchange rate of risk.

c) Industry risks;

The pharmaceutical industry has witnessed challenges such as intellectual property rights, a historic fuel price peak, and material cost increase across the globe. It stands as one of the most challenging and dynamic industries to operate as on date. Fortunately, Bangladesh is only least developed country who demonstrates significant competencies in pharmaceuticals industry and it requires huge medicine for its present population and requires huge quantity of medicine. As such, local pharmaceutical industry is not in a trouble; rather the said industry has many opportunities to grow.

Management Perception

As the per capita income and per person consumption of medicine is increasing over the years, management is optimistic about growth opportunities of pharmaceutical industry in Bangladesh. The company is trying to adopt sophisticated state of the art manufacturing facilities and making efforts to catch the opportunity of regulated global market.

d) Economic and political risks;

Economic risks:

The economy could be adversely affected by various factors such as political or regulatory action, including adverse changes in liberalization policies, social disturbances, terrorist attacks and other acts of violence or war, natural calamities, commodity and energy prices and various other factors. Any significant changes may adversely affect business and finance.

Management Perception:

Bangladesh economy is booming. Consistent industrial growth along with increased pharmaceutical production has made the Per Capita Income higher than that of recent years. In addition, favorable government policies and industry-friendly policies by other regulatory bodies have proved to be congenial to the economy of the country. The unexpected changes or amendments of those friendly policies may rise economic risk. The management is aware of such risks.

Political risks:

Bangladesh is prone to serious unrest in the political condition, which produces strike, road-blocked and many other barriers to the business. This could also push the cost of the product upwards.

Management Perception:

During the last forty years of the post-independence period, Bangladesh has gone through a variety of political situations. Recently, a stable political atmosphere is prevailing in the country. Both the ruling and opposition parties are committed to the betterment of the country. Political parties are thinking for growth of the country.

e) Market and Technology-related risks;

The Company has best-class infrastructure with recently imported technologically updated & sophisticated machinery and equipment. The production facilities are based on currently available technology. However, Asiatic Laboratories Limited investment in plants and technology may become obsolete and the product quality may be impaired due to malpractice or decayed technological enforcement.

Management Perception

Company owns modern technology with R&D Infrastructure and shall be able to moderate investments, as it has been doing in the past. The Company imported plant and technology from reputed manufacturer with proper warranty to take care of any defects or confirmation of supplying of adequate spare parts has manufactured the selected/ installed plant and machinery. Moreover, sufficient flexibility such as project sequencing and option-based project implementation has been planned to facilitate updated technologically.

f) Potential or existing government regulations;

The Company operates under Companies Act, 1994, Income Tax Ordinance, 1984, Income Tax Rules, 1984, Value Added Tax (VAT) Act, 1991, Value Added Tax (VAT) Rules, 1991, Customs Act, 1969 and other related regulations. Any abrupt changes in the policies made by the regulatory authorities may unfavorably affect the business of the Company.

Management perception:

Unless any policy change that may negatively and materially affect the industry as a whole, the business of the Company is expected not to be affected significantly. Pharmaceutical industry in Bangladesh is a sector with considerable local demand for differentiated product lines. Therefore, it is highly unlikely that the Government will initiate any fiscal measure having an adverse effect on the growth of the industry.

g) Potential or existing changes in global or national policies;

The Company is dependent on imported raw materials. Any scarcity due to changes in policy in the international market might dent the production level and profitability. The performance of the company may be affected due to unavoidable circumstances both in Bangladesh and worldwide, as such political turmoil and disturbance in the country may adversely affect the economy in general.

Management perception:

The management of Asiatic Laboratories Limited is always concerned about the prevailing and unforeseen future changes in the global or national policy and equipped them to respond appropriately and timely to safeguard its interest. Due to the strong brand equity of the company in the local market and with long and profound track experience, the Company will always endeavor to withstand the unexpected changes or any such potential threats. Nevertheless, political stability and a congenial business environment is definitely the best situation in which is destined to achieve its maximum potential. Political turmoil and the disturbance are not good for any economy so also for any company.

h) Statutory clearances and approvals those are yet to be received by the issuer;

To smooth running of the business operation, statutory clearance is required.

Management Perception:

The company has collected all the statutory clearance and approval to operate the business. The necessary update and renewal are a continuous process. Hence, there is a limited degree of such risk associated with the company.

i) Competitive condition of the business;

Asiatic Laboratories Limited is operating in a free-market economy regime. The company might have to face stiff competition from its competitors. Easily availability of global products in the local markets adds to the competition, challenging the profitability of the business.

Management Perception:

Bangladesh is the key source of economic labor in the world, gaining proportional advantages for its industries over their global competitors. Other overhead costs are also low in Bangladesh. As a result, the company has been able to maintain its cost of products most competitive. Moreover, over the last few years the company has built a trustworthy relationship with its customers, which helps the company avoid competition with others.

j) Complementary and supplementary products or services, which may have an impact on business of the issuer.

Complementary and supplementary product may have an impact on the sales of the existing product of the Company.

Management Perception:

The company has not faced any challenges relating to supplementary and complementary products and management are concerned with the issue. In future, if necessary, management may diversify the product to be competitive over the competitors.

- FUTURE PROSPECTS:**

Bangladesh is 8th most populated country in the world. Although Nearly 32.5% of the population of Bangladesh lives below poverty level but it has 31st highest economic growth worldwide, with a 6.2% average annual increase in gross domestic products. In Bangladesh, Cancer is the 6th leading cause of death with 10% of all mortality. Based on two hospital-based cancer registries, approx. 66% of the cancer patients are found within the age range of 30 to 65 years, which is the main work force structure of the country. Breast, esophageal and cervical cancers are the most common incidence in Bangladesh. Lung, esophageal and pharyngeal cancers accounts for the highest rate of cancer related mortality in our country. It is considered that Bangladesh has several nutritional health hazards, which are likely contributing to the current cancer burden. Millions of people in Bangladesh have been exposed to arsenic, a well-known carcinogen, due to the contamination of ground water. Carcinogens in food supply, with the use of formalin in several foods and DDT (Dichloro-Diphenyl-Trichloro Ethane) in dried fish and Consuming suboptimal amount of nutrition are also a major concern. Considering this it is estimated that the incidence of cancer cases will rise to double by 2035. The anti-cancer drug market in Bangladesh is growing at 20 percent a year due to an alarming rise in cancer patients. At present, domestic market size of oncology, drugs would be of around Tk. 2.5 billion annually. Locally produced drugs are meeting 70% of the country's demand, while the remaining 30% percent is met through imports. The locally produced anti-cancer medicines are at least 20-30 percent cheaper than the imported ones, which are why local pharmaceutical companies are widening the production of anticancer drugs capturing half of the market share. Currently only few local companies are manufacturing anticancer drugs, which clearly indicate that there, is huge opportunity left in this market. Cancer has a widespread prevalence not only in Bangladesh but also worldwide which has led to rise in demand of cancer drugs. Therefore, besides local market, anticancer drugs have a huge opportunity for global market. It is estimated that the global anticancer drug market will reach to double from 2019 to 2025, growing at a CAGR (Compound Average Growth Rate) of 7.9% from 2019.

High market growth potential in developing countries, rise in the number of innovative products and surge in cancer research are expected to create new opportunities for the market. High cost related with anticancer drug in global market can create a huge opportunity for export of anticancer drug from Bangladesh. On the other hand, Steroid products including systemic hormone total market size is about BDT 300 crore. In Bangladesh, rate of using steroid products are very much high to control severe allergic reaction. In addition to this, oral & injectable hormonal products have highest opportunity in Bangladesh for the treatment of infertility & other diseases.

• **DISTRIBUTION OF THE PRODUCT:**

Distribution involves physical distribution of the company's products directly to the customer base. Typically, this is a combined transport and warehousing operation, responsible for storing and delivering products to meet the customer's requirements. The Company supplies its products from its own factory warehouse via Depot to its customer's premises at companies own risk against delivery order.

• **PROCESS FLOW:**

• **BUSINESS STRATEGY:**

Asiatic Laboratories Limited has modern machines and technology that ensures quality products. The production sites follow the cGMP guidelines for environmental requirements of the manufacturing and packaging area, as well as comply with the EHS requirements. Manufacturing and packaging operations are carried out according to the validated methods through systematically qualified machines with full documentation at all stages of operations. Proper quality of goods is maintained throughout the production and distribution process. Our main goal is to fill up the deficit of local demand and to export overseas.

• **ORGANIZATION SET UP:**

The overall management of the Company's business will be vested in its Board of Directors. The Managing Director of the Company who will assume overall responsibility for the day-to-day affairs of the Company. He will be closely assisted by the other directors of the Company for efficient management of the Company. The organizational structure of the Company will be based on online and staff methods. The job responsibility of the Management and technical personnel will be clearly defined by the Managing Director and the Board of Directors of the Company.

• **WEAKNESSES:**

- ☞ **Slim Profit margin:** Since the Company is at early stage of production, the profit margin is slim.
- ☞ **Innovation:** Innovative effectiveness is low due to skilled work force.
- ☞ **Concentrated Market:** ALL's products are not yet covered all the institutions of the country.
- ☞ **Poor Market share:** Compared to companies that offer similar products, ALL's market share is relatively low.
- ☞ **Lack of International Recognition:** ALL currently has limited exports.

• **THREAT:**

- ☞ **Intense Competition:** There is rivalry among the competitors to get the market share as maximum as possible.
- ☞ **Depreciation of BDT against USD increases costs of raw materials:** There is a risk of devaluation of BDT, which will increase cost of raw materials as the Company purchases raw materials from abroad as well as local market.
- ☞ **Political Unrest:** At present, there is no unrest rather stable political condition is prevailing in Bangladesh. This condition is conducive to business.

• **METHODOLOGY:**

We have considered the historical data of the company. We have also talked with their key management person & supporting staff. The interviews provided us with relevant information concerning all aspects of sales and expenses. The responses to these open-ended questions have allowed us to have a greater depth of knowledge into their opinions and so we were able to address them to the best of our ability. A lot of time was spent working on the interviews; also, that each had a different idea that is important to the effects of the implementation of sales growth, and enough background information was included. Once we have compiled and analyzed all our data and research, we as a group, look at all the different options of implementing the living wall and then decide on the best option for the sales, current and future market and our saleable capacity in near future.

Key Audit Matter	Our Audit Approach
<p>As at June 30, 2021 The reported amount of inventory is Tk. 319,939,446/- represents 50.73% of current assets and almost 5.45% of total assets. The closing inventory figure have significant impact in determining the cost of goods sold</p> <p>Inventories are usually carried in financial statements at the lower of cost and net realizable value. Since frequent changes in customer, demand is unavoidable in manufacturing industry and a large quantity of raw material is held. As a result, there is risk that the carrying value of inventory exceeds net realizable value.</p>	<p>Our audit approach includes but not limited to the followings:</p> <p>-We gained a clear understanding of recording and valuation methods and operating effectiveness regarding Inventory.</p> <p>-We made sure that closing balances carried forward correctly and current year purchase amounts agreed with ledger balances.</p> <p>-We reviewed the company's policy of accounting for obsolete, damaged & slow-moving items along with procedure for disposal.</p> <p>-We have checked the physical safeguard of inventory held at warehouse of the company.</p> <p>- We also reviewed the requisition process of inventory and control on dispatch of items.</p> <p>-We have also considered the adequacy of the company's disclosures in respect of the levels of provisions against inventory.</p>
3. Capital work in progress Ref: Note 3.03 & 7.00	
Key Audit Matter	Our Audit Approach
<p>In the year ended 30th June, 2021 the company accounted for Capital Work in Progress (WIP) closing balance of Tk. 46,566,099 /-.</p> <p>The company also presented transfer of Tk. 121,006,451/- (Building & Other Construction) & Tk. 183,895,983/- (Plant & Machinery) to Property, Plant and Equipment in the reporting period.</p> <p>The capitalized amount (Tk.121,006,451/-+ 183,895,983/-) = 304,902,434/- is material to the statement of financial position and represents 5.2 % of total asset of the company.</p>	<p>Our audit approach includes but not limited to the followings:</p> <p>-We have checked that the correct account balances are carried forward in Capital Work in Progress account and calculate the mathematical accuracy of the total amount presented.</p> <p>-We reviewed the documents in support of the total amount of investment in capital project and make sure none of them is irrelevant with current year (cut off).</p> <p>-We inspected the physical existence of the assets capitalized in current year along with the verification of company's legal rights on those assets.</p> <p>-We evaluate the appropriateness of disclosures in financial statements.</p>
4. Deferred Tax Liability Ref: Note 3.24 & 18	

Key Audit Matter	Our Audit Approach
<p>As per IAS 12 Income Taxes, the two components of the company's estimated tax is Current Tax & Deferred Tax. There is a deferred tax liability of 401,041,397/- which is almost equivalent to 6.84% compared to total assets of the company. In SPLOCI there is a reported deferred tax expense of Tk. 20,386,501/- which is 6.36% of the reported profit for the year (other than OCI).</p> <p>The temporary difference of deferred tax consists critical calculation and forecast. The uncertainty in forecasting or lack of expertise may results in material misstatements, which may have an impact on corporate tax.</p> <p>There are changes of misstatement in amounts due to incompetent valuation methods. There is also possibility of non-compliance in relation to local regulatory guideline regarding asset valuation.</p>	<p>We verified that right opening balances are carried forward in deferred tax account.</p> <p>-We made sure that, the tax base is according to 3rd schedule of ITO 1984 and the accountant of the company have clear understanding of posting the associated journal entries.</p> <p>- We recalculated the figures presented in the financial statements and made sure they agreed with general ledger.</p> <p>- We examine the procedure of arriving at temporary difference in case of lease liability and ROU asset</p> <p>-We reviewed the amount of provision created for Deferred Tax in current year and the relevant adjustment against revaluation reserve.</p> <p>-We ensure that the correct rate of Tax is used to calculate the provisions for deferred tax.</p> <p>-We evaluated the adequacy of financial statement disclosures including key assumptions, judgments and sensitivities.</p>
05. Lease Liability Ref: Note 3.01, 3.02.5, 17 & 24	
Key Audit Matter	Our Audit Approach
<p>In the Financial Statement there is Current Lease Liability of Tk. 16,715,222/- & non-current portion is Tk. 32,620,870/- as on date. The total lease liability (Tk. 16,715,222/- + Tk. 32,620,870) = Tk. 49,336,092/- considered material due to its involvement with critical accounting estimate and judgment.</p> <p>The application of IFRS-16 Leases involves complex understanding and assumption that increases the possibility for misstatement in calculating lease liability, corresponding assets and associated effective interests charged in current year.</p>	<p>We have tested the design and operating effectiveness of key controls regarding the recognition and measurement of lease obligation and ROU assets. Our audit approach includes but not limited to the followings:</p> <p>-Collect the lease agreements and rescheduling letters issue by leasing company.</p> <p>-We ensure correct balances are carried forward from previous period.</p> <p>-We checked the effective date of lease agreements to confirm fair presentation.</p> <p>-We checked the validity of using effective interest rate for arriving at interest charge each period.</p> <p>-We checked the arithmetic accuracy of payment schedule and ROU asset recognition.</p> <p>-We verified management's assumptions regarding depreciation and useful life of ROU assets in case of both capital & rental lease agreements.</p> <p>-We checked the mathematical accuracy and type of asset transferred from ROU category to freehold PPE</p> <p>-We examine the adequacy of disclosure presentation requirements in relation to IFRS-16 Leases.</p>
06. Revaluation Ref: 3.02.8 & OCI	
Key Audit Matter	Our Audit Approach
<p>The entity reported fixed assets revaluation surplus in current year amounting Tk 1,929,285,128/- as Other Comprehensive Income.</p>	<p>-We checked management's assumption regarding the necessity of PPE revaluation.</p> <p>-We checked the Board meeting minute to confirm the validity of the revaluation decision.</p>

<p>There are chances of misstatement in amounts due to incompetent valuation methods. There is also possibility of non-compliance in relation to local regulatory guideline regarding assets valuation.</p>	<p>-We reviewed the process of appointment of independent valuer.</p> <p>-We made necessary query to ensure the skill and competency of independent valuer to conduct such valuation.</p> <p>-We review the assumption made during valuation, the base value and the used.</p> <p>-We checked the compliance of the company regarding asset valuation guideline by local regulator.</p> <p>-We assessed the requirements and adequacy of disclosures regarding revaluation.</p> <p>-The valuation report has been prepared and treated in accordance with IAS and IFRS and Other applicable law and regulation and the company give proper accounting treatments, including provision, tax and other liabilities in the financial statements to consider the valuation of PPE.</p>

OTHER INFORMATION

Another independent auditor had expressed an unmodified opinion regarding the preparation and presentation of financial statements for the year ended 30th June, 2020.

Management is responsible for the other information. The other information comprises all the information in the annual report other than the Financial Statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE FINANCIAL STATEMENTS AND INTERNAL CONTROLS

Management is responsible for the preparation and fair presentation of the Financial Statements in accordance with IFRSs, The Companies Act 1994, Securities & Exchange Rules, 1987 and other applicable laws and regulations and for such internal control as management determines is necessary to enable the preparation of Financial Statements that are free from material misstatement, whether due to fraud or error. The Companies Act, 1994 require the management to ensure effective internal audit, internal control, and risk management functions of the company.

In preparing the Financial Statements, management is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so. Those charged with governance are responsible for overseeing the company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or taken together, they could reasonably be expected to influence the economic decisions of users taken based on these Financial Statements. As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We are also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and event in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the company to express an opinion on the Financial Statements we are responsible for the direction, supervision, and performance of the company audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

In accordance with the Companies Act 1994 and Securities & Exchange Rules 1987, we also report that:

- a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof;
- b) In our opinion, the company has kept proper books of accounts, records and other statutory books as required by law as far as it appeared from our examinations of those books.
- c) The Statement of Financial Position, Statement of Profit or Loss & Other Comprehensive Income and Statement of Changes in Equity and Statement of Cash Flows of the Company dealt with by the report are in agreement with the books of accounts and returns; and
- d) The expenditure incurred were for the purpose of the Company's business.

2.11 COMPONENTS OF FINANCIAL STATEMENTS

The presentation of these Financial Statements is in accordance with the guidelines provided by IAS-1: "Presentation of Financial Statements". A complete set of Financial Statements comprises:

The Financial Statements comprises of:

- Statement of Financial Position as at June 30, 2021;
- Statement of Profit or Loss and other Comprehensive Income for the year ended June 30, 2021;
- Statement of Changes in Equity for the year ended June 30, 2021;
- Statement of Cash Flows for the year ended June 30, 2021; and
- Notes, comprising summary of significant accounting policies and other explanatory information to the accounts for the year ended June 30, 2021.

3.00 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The specific accounting policies have been selected and applied for significant transactions and events that have a material effect within the framework for the preparation and presentation of Financial Statements.

3.01 ACCOUNTING CONVENTION AND BASIS

The Financial Statements have been prepared in accordance with International Accounting Standards (IASs), International Financial Reporting Standards (IFRSs), the Companies Act, 1994, The Securities and Exchange Rules, 1987 and other laws and regulations applicable in Bangladesh.

CHANGES IN SIGNIFICANT ACCOUNTING POLICIES

Except the changes following, the Company has consistently applied the accounting policies to all periods presented in these financial statements. The Company has initially adopted IFRS 16 'Leases' 1st July 2019. There is no material impact on financial statements on initial application of the standards.

AS A LESSEE

On 1st July 2019, IFRS 16 'Lease' has been adopted and all leasing arrangements except those having less than 12 months of useful life and underlying asset values of less than BDT 425,000 (\geq \$ 5000 as per IFRS 16) when new, have been capitalized as "right to use" assets with a corresponding financial liability on the balance sheet. Leased assets are capitalized from the start date of the lease agreement at the present value of the future leased payments, based on the rate of interest entered in the asset master data. Low value (less than BDT 425,000) and short-term leases (less than 12 months) have been excluded from the recognition requirements and expensed in operating profit as rental costs. Lease reassessment and lease modification to increase/decrease the value of an asset depending on a change in scope of lease agreement can be made if necessary.

The lessor transfers ownership of the underlying assets to the lessee by the end of the lease term or if the cost of right-of-use asset reflects that the lessee will exercise a purchase option, the lessor shall depreciate the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the lessee shall depreciate the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

LEASES CLASSIFIED AS OPERATING LEASES UNDER IFRS 16

IFRS 16 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognizes a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are recognition exemptions for short-term leases and leases of low-value items. The most significant impact identified is that, leases liabilities were measured at the present value (rent for office /Depot / space) of the remaining lease payments, discounted at ALL's incremental borrowing rates as at 01 July 2019. Right-of-Use assets are measured at an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments.

RIGHT OF USE ASSETS AS AT 30 JUNE 2021

Right-of use assets written down value of BDT. 53,284,211/- and BDT. 92,699,855/-were recognized at cost and presented separately in the Statement of Financial Position and Tk. 8,993,862/- in addition during the year.

3.02 FREEHOLD PROPERTY, PLANT AND EQUIPMENT

3.02.1 RECOGNITION, MEASUREMENT AND DISCLOSURE OF PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment except Land and Land development are measured at cost less accumulated depreciation and impairment losses if any. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable cost inward freight, duties and non-refundable taxes. Where parts of an item of property, plant and equipment have different useful life, they are accounted for as separate items of property, plant and equipment. The Company recognizes in the carrying amount of an item of property, plant and equipment the cost of replacing part of such an item when that cost is incurred if it is probable that the future economic benefits embodied within the item will flow to the entity and the cost of the item can be measured reliably. All other costs are recognized in the Statement of Profit or Loss and Other Comprehensive Income as an expense as incurred. In accordance with the allowed alternative treatment of *IAS 23 "Borrowing Cost"*, finance costs have been capitalized for qualifying assets (if any).

3.02.2 DEPRECIATION ON FREEHOLD PROPERTY, PLANT AND EQUIPMENT

Depreciation on a fixed asset is computed using the reducing balance method. No depreciation charged of land and land development and capital work in progress. After considering the useful life of assets as per IAS-16 Property, Plant and Equipment the annual depreciation rates applied under this is considered reasonable by the management. The rate of depreciation is varied according to the estimated useful lives of the items of property, plant and equipment. Depreciation of an asset begins when it is available for use i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by the management. The cost and accumulated depreciation of depreciable assets retired or otherwise disposed of are eliminated from the assets and accumulated depreciation and any gain or loss on such disposal is reflected in operations for the year. The estimated useful life for depreciation is as follows:

Category	Rate (%)	Useful lives
Land & land Development	0%	Infinite useful life
Building & Other Construction	2.5%	40 Years
Plant & Machinery	7.5%	13 Years
Furniture and Fixture	10%	10 Years
Generator	10%	10 Years
Electrical Installation	10%	10 Years
Vehicle	10%	10 Years
Fire Equipment	10%	10 Years
Office Equipment	10%	10 Years

3.02.3 DEPRECIATION ON RIGHT OF USE ASSETS

Depreciation on Right of use Assets (Finance Lease) is computed using reducing balance method to write off the assets over their expected useful life. After considering the useful life of assets as per IAS-16 Property, Plant & Equipment the annual depreciation rates applied under which is considered reasonable by the management.

Depreciation of an asset begins when it is available for use i.e., when it is in the location and condition necessary for it to be capable of operating in the manner intended by the management. The estimated useful life for depreciation is as follows:

Category	Rate (%)	Useful lives
Plant & Machinery	7.5%	13 Years

Depreciation on Right of use Assets (Rental Lease) is computed using straight-line method from the commencement date to the end of the useful life as per lease agreement. The company calculated depreciation on Right of Use Assets for the following tenor:

Category	Rate (Years)
Dinajpur Depot	3 Years
Bogra Depot	3 Years
Faridpur Depot	2 Years
Sylhet Depot	2 Years
Chottagram Depot	2 Years
Kishorgonj Depot	2 Years
Mymensingh Depot	2 Years
Feni Depot	3 Years
Rongpur Depot	3 Years
Khustia Depot	3 Years
Rajshahi Depot	3 Years
Cumilla Depot	3 Years
Khulna Depot	3 Years
Tangail Depot	3 Years
Dhaka Depot	2 Years
Gazipur Depot	3 Years

3.02.4 DISPOSAL OF FREEHOLD PROPERTY, PLANT AND EQUIPMENT

An asset is derecognized upon disposal or when no future economic benefits are expected from its use and subsequent disposal. Gains or losses arising from the retirement or disposal of an asset is determined as the difference between the net disposal proceeds and the carrying amount of the asset is recognized as gain or loss from disposal of asset under other income in the statement of comprehensive income. However, no such disposal of Property, Plant and Equipment was made during the year ended on June 30, 2021.

3.02.5 TRANSFER OF RIGHT OF USE ASSETS

After completion of Lease Payment, the Right of Use assets has been transferred to appropriate asset category of Freehold Property, Plant and Equipment.

3.02.6 MAINTENANCE ACTIVITIES

The company incurs maintenance cost all its major items of property, plant and equipment. Repair and Maintenance costs are charged as expenses when incurred.

3.02.7 SUBSEQUENT COSTS

The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the company and its cost can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment are recognized in the profit and loss account as incurred.

3.02.8 REVALUATION OF FREEHOLD PROPERTY, PLANT & EQUIPMENT

As per IAS16: Property, Plant and Equipment paragraph 34, “the frequency of revaluations depends upon the changes in fair values of the items of property, plant and equipment being revalued. When the fair value of a revalued asset differs materially from its carrying amount, a further revaluation is required. Some items of property, plant and equipment experience significant and volatile changes in fair value, thus necessitating annual revaluation. Such frequent revaluations are unnecessary for items of property, plant and equipment with only insignificant changes in fair value. Instead, it may be necessary to revalue the item only every three or five years. To comply with the above paragraph The Company made its first valuation of Land and Land Development, Plant and machineries and building and other construction on 30 June 2020 by an independent valuer to reflect fair value (Market Approach) thereof following ‘Current Cost Method’ as per IFRS-13 ‘Fair Value Measurement’.

Particulars of Assets	Name of Valuer	Qualification of the Valuer	Date of Revaluation	Carrying amount of Assets	Value of the assets after revaluation	Revaluation Surplus in 30.06.2020
Land and Land Development	M/S Shafiq Basak & Co.	Chartered Accountants	31-January-21	1,269,603,743	3,085,600,000	1,815,996,257
Building and other construction				865,213,763	934,214,588	69,000,825
Plant and machineries				683,144,962	727,433,008	44,288,046
Total				2,817,962,468	4,747,247,596	1,929,285,128

The increase in the carrying amount of revalued assets is recognized in the separate component of equity as Revaluation Surplus. However, the increase recognized in the statement of Profit or Loss and Others Comprehensive Income for year ended June 30, 2021. Other Non-Current Assets were kept outside the scope of the revaluation works. These are expected to be realizable at written down value (WDV) as mentioned in the statement of Financial Position of the company. The Company revalued its Property, Plant & Equipment (Fixed Assets) as per valuation guidelines issued by the Bangladesh Securities and Exchange Commission (BSEC) dated on 18 August 2013 clause 09 of Part A. For better understanding, a table showing below;

Name of PPE	Value at Cost as on 30 June 2020	Revalued amount as on 30 June 2020	Revaluation Surplus on 30 June 2020	Remarks
Land and Land Development	1,269,603,743	3,085,600,000	1,815,996,257	As per (BSEC) valuation guideline dated on 18 August 2013 clause-8 Time-lag between two valuation for the same class of assets shall not be less than three years; provided that no upward revaluation of an asset shall be made within two years of its acquisition;
Building and other construction	865,213,763	934,214,588	69,000,825	As per (BSEC) valuation guideline dated on 18 August 2013 clause-9(iii) upward revaluation of the asset are not allowed 'Tinished buildings, buildings having remaining economic life of less than 50% of its total useful life, as estimated at construction''
Plant and machineries	683,144,962	727,433,008	44,288,046	As per (BSEC) valuation guideline dated on 18 August 2013 clause-9(iii) upward revaluation of the asset are not allowed 'Plant & machineries acquired in second in hand condition, acquired in brand new condition but having remaining economic life of less than 50% of its total useful life, as estimated at acquisition''
All Other Assets	160,216,540	-	-	As per (BSEC) valuation guideline dated on 18 August 2013 clause-9(iv) upward revaluation of the asset are not allowed 'Vehicles, furniture & Fittings, office equipment, loose tools and intangible assets''

3.02.9 IMPAIRMENT OF ASSETS

The management of the Company takes physical stocks periodically and recognition of the assets were made accordingly considering the usable condition, wear and tear of the assets as follows:

- The valuation of Property, Plant & Equipment has been made based on the usable condition of the assets as per IAS-36 Impairment of Assets.
- The management of the Company has conducted physical verification of Property, Plant & Equipment on 30.06.2021

Property, Plant & Equipment's are consisting of Building & other construction, Plant & Machinery, Furniture & Fixture, Office Equipment, Fire Equipment and Vehicle are valued at lower of cost and net realisable value as per IAS 16: Property, Plant & Equipment Costs include expenditure incurred in acquiring the assets and other costs incurred in bringing them to their existing location and condition. Impairment of assets are made as and when assets became obsolete or unusable, for which the management of the company is giving decisions from time to time.

The management of the Company reviews the carrying amounts of its assets (Balance Sheet Date) to determine whether there is any indication of impairment in accordance with IAS-36: 'Impairment of Assets'. During the year at Balance Sheet date, there was no indication of impairment of assets; as such, no adjustment was given in the Financial Statements for impairment during the year ended on June 30, 2021

3.02.10 INTANGIBLE ASSET

RECOGNITION AND MEASUREMENT

Intangible assets that are acquired by the Company and have finite useful lives are measured at cost less accumulated amortization and accumulated impairment loss, if any. Intangible assets are recognised when all the conditions for recognition as per IAS 38: Intangible assets are met. The cost of an intangible asset comprises its purchase price, import duties and non-refundable taxes and any directly attributable cost of preparing the asset for its intended use.

SUBSEQUENT COSTS

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditures are recognised in statement of profit or loss and other comprehensive income as incurred.

AMORTIZATION

Computer software are amortised over 7 years from the month immediately following the month in which the asset comes into use.

3.03 CAPITAL WORK IN PROCESS

Property, plant, and equipment under construction/ acquisition are accounted for, as capital work-in-progress until construction / acquisition is complete and measured at cost. In Addition, as per IAS 23, the Interest expense on the bank loan taken for acquisition of plant and machinery has been capitalized (if any) since the assets could not make ready for use during the reporting period.

3.04 VALUATION OF INVENTORIES

Inventories consisting of raw materials, work in progress, finished goods are valued at lower of cost and net realisable value as per IAS 2: Inventory. Cost of inventories include expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. Cost of inventories is determined by using the weighted average cost formula. Where necessary, allowance is provided for damaged, obsolete and slow-moving items to adjust the carrying amount of inventories to the lower of cost and net realisable value as the board approve from time to time. Net realisable value is based on estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Category of Stocks	Basis of valuation
Raw Material including WIP:	At lower of cost or net realizable value
Finished Goods:	At lower of cost or net realizable value

IMPAIRMENT OF INVENTORIES

Impairment of inventory is made as and when inventory became obsolete or unusable or for slow moving items for which the management of the company is, giving decisions from time to time. Based on sales cycle of slow-moving items, the sales prices of the products may decrease over time. The management of the Company reviews the carrying amounts of its inventory (Balance Sheet Date) to determine whether there is any indication of impairment In accordance with IAS-2: 'Inventories'. When the sales price moves below the inventory cost prices, the loss on sales is recognized immediately in the Financial Statements. However, there was no indication of impairment of inventory during the year; and as such, no adjustment was given in the Financial Statements for impairment.

3.05 BORROWING COST

Interest and other cost incurred in the Company in connection with the borrowing of fund are recognized as expenses in the year in which they are incurred unless such borrowings cost related to acquisition/construction of assets in progress that are required to capitalized (if any) as per IAS-23: Borrowing Cost.

3.06 FINANCIAL INSTRUMENTS

3.06.1 DERIVATIVE

According to IFRS 7 “Financial Instruments Disclosure”, the company was not a party to any derivative contract (Financial instruments) at the Balance Sheet date, such as forward exchange contracts, currency swap agreement or contract to hedge currency exposure related to import of capital machinery to be leased to leases in future.

3.06.2 NON-DERIVATION FINANCIAL INSTRUMENTS

Non-derivative financial instruments comprise trade receivables, trade payables, cash and cash equivalents and share capital.

3.06.3 TRADE AND OTHER RECEIVABLES

Trade receivables are recognized initially at invoice value and subsequently measured at the remaining amount less allowance for doubtful receivable at the year end, (if any), which is made at the discretion of the management.

3.06.4 CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of cash in hand and with banks on current and deposit accounts and short-term investments, which are held and available for use by the company without any restriction. There is insignificant risk of change in value of the same.

3.06.5 TRADE AND OTHER PAYABLES

Trade and other Payables are recorded at the amount payable for settlement in respect of goods and services received by the company.

3.06.6 SHARE CAPITAL

Ordinary shares capitals are classified as equity.

3.06.7 SHARE MONEY DEPOSIT

Share money received in exchange for shares, which have not yet been acquired. The Company may have received money “up front” for a new issue of shares. Share Money considered at equity share at the time of calculation of Earnings per Share (EPS). The excess amount has refunded on behalf of Share money depositor after made allotment.

3.07 STATEMENT OF CASH FLOWS

Statement of Cash Flows is prepared principally in accordance with IAS-7 "**Statement of Cash Flows**" and the cash flow from the operating activities have been presented under direct method as prescribed by the Securities and Exchange Rules, considering the provision of paragraph 19 of IAS-7 which provides that "Enterprises are Encouraged to Report Cash Flows from Operating Activities Using the Direct Method". As well as indirect method in the notes to the Financial Statement.

3.08 PROVISION, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

The Financial Statements are prepared in conformity with IAS 37 “Provision, contingent Liabilities and Contingent Assets”, which requires management to ensure that appropriate recognition criteria and measurement bases are applied to provision for outstanding expenses, contingent liability, assets and that sufficient information is disclosed in the notes to the accounts to enable its users for their understanding about its nature, timing and amount. In accordance with the guidelines as prescribed by IAS-37, provisions were recognized in the following situations:

- When the company has a present obligation because of the past event.
- When it is probable that an outflow of resources embodying economic benefits will be required to settle the obligations and
- Reliable estimate can be made about the sum of the obligation.

We have shown the provision in the statement of Financial Position at an appropriate level with regard to an adequate provision for risks and uncertainties. The sum of provision estimated and booked represents the reliable estimate of the probable expenses incurred but not paid, which is required to fulfil the current obligation on the Balance Sheet Date.

3.09 LOANS AND BORROWINGS

Principal amounts of loans and borrowings are stated at their outstanding amounts. Borrowings repayable after twelve months from the reporting date are classified as non-current liabilities whereas the portion payable within twelve months, unpaid interest and other charges are classified as current liabilities.

3.10 REVENUE RECOGNITION

"As per IFRS-15: "Revenue from Contracts with Customers" an entity shall account for a contract with a customer only when all of the following criteria are met:

- The parties to the contract have approved the contract (in writing, orally or in accordance with other customary business practices) and are committed to performing their respective obligations.
- The entity can identify each party 's rights regarding the goods or services to be transferred.
- The entity can identify the payment terms for the goods or services to be transferred.
- The contract has commercial substance (i.e., the risk, timing or amount of the entity's future cash flows is expected to change as a result of the contract); and
- It is probable that the entity will collect the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer."

Considering the five steps model, the Company recognizes revenue at the time of delivery when (or as) the Company satisfies a performance obligation by transferring a promised good to a customer. Goods are considered as transferred when (or as) the customer obtains control of those goods. Revenue from sale of goods is measured at the fair value of the consideration received or receivable net of returns and allowances, trade discounts, rebates, and Value Added Tax (VAT).

SALE OF GOODS

The revenue from the sale of goods is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer when the buyer provides assurance by giving acceptance on the delivery of goods. The revenue represents the invoice value of goods supplied to the customers measured at the fair value of the consideration received or receivable.

IMPACT OF ADOPTION OF IFRS-15 'REVENUE FROM CONTRACT WITH CUSTOMERS' AND IFRS-16 "LEASES"

IFRS-15 "REVENUE FROM CONTRACT WITH CUSTOMERS"

In addition, prior year Financial Statements were prepared in accordance with Bangladesh Accounting Standards (BASs) and Bangladesh Financial Reporting Standards (BFRSs). The management of the Company has introduced IFRS-15 'Revenue from contract with Customers' instead of IAS-18 'Revenue' from 1st July 2018. The Management of the Company has assessed the difference between IFRS-15 'Revenue from contract with Customers' instead of IAS-18 'Revenue' and concluded that there are no differences that would impact any numerical amount and disclosures in the financial statement. For better presentation, the management reconciled Statement of Profit or Loss and Other Comprehensive Income, Statement of Cash Flows as well as Statement of Financial Position of the company with the effect of IFRS-15 Para c (8) which is shown below:

3.11 FINANCIAL INSTRUMENTS

IFRS 9 sets out requirements for recognizing and measuring Financial Assets, Financial Liabilities, and some contracts to buy or sell non-financial items. This standard replaces IAS 39 Financial Instruments: Recognition and Measurement. The details of new significant accounting policies and the nature and effect of the changes to previous accounting policies are set out below.

CLASSIFICATION AND MEASUREMENT OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

IFRS 9 largely retains the existing requirements in IAS 39 for the classification and measurement of financial liabilities. However, it eliminates the previous IAS 39 categories for financial assets of held to maturity, loans and receivables and available for sale. The adoption of IFRS 9 has not had a significant effect on the company's accounting policies related to financial liabilities. The impact of IFRS 9 on the classification and measurement of Financial Assets is set out below. Under IFRS 9, on initial recognition, a Financial Asset is classified as measured at amortized cost; The Fair Value through Other Comprehensive Income (FVOCI)—debt investment; Fair Value through Other Comprehensive Income (FVOCI)—equity investment; or Fair Value through Profit or Loss (FVTPL). The classification of Financial Assets under IFRS 9 is generally based on the business model in which a Financial Asset is managed and its contractual cash flow characteristics. The derivatives embedded in contracts where the host is a financial asset in the scope of the standard are never separated. Instead, the hybrid Financial Instrument as a whole is assessed for classification.

IMPAIRMENT OF FINANCIAL ASSETS

IFRS 9 replaces the 'incurred loss' model in IAS 39 with an 'expected credit loss' (ECL) model. The new impairment model applies to Financial Assets measured at amortised cost, contract assets and debt investments at FVOCI, but not to investments in equity instruments. The Financial Assets at amortised cost consist of trade receivables, cash and cash equivalents, and corporate debt securities. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information. The company considers a financial asset to be in default when the debtor is unlikely to pay its credit obligations to the company in full, without recourse by the company to actions such as realizing security (if any is held).

MEASUREMENT OF EXPECTED CREDIT LOSSES (ECL)

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e., the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the company expects to receive). ECLs are discounted at the effective interest rate of the Financial Asset. At each reporting date, the company assesses whether Financial Assets carried at amortised cost are credit impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future Cash Flows of the financial asset have occurred. The Company expected that they have no credit losses on Trade & Other Receivables.

PRESENTATION OF IMPAIRMENT

Loss allowances for Financial Assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is recognised in OCI, instead of reducing the carrying amount of the asset. Impairment losses related to trade receivables and others, including contract assets, shall present separately in the notes to the financial statement if any.

3.12 IMPAIRMENT

I) FINANCIAL ASSETS

The Company shall recognize loss allowances for Expected Credit Losses ECLs (if any) on:

- Financial Assets measured at amortised cost;
- Debt investments (if any) measured at FVOCI; and
- Contract assets (if any).

Loss allowances for Financial Assets (if any) measured at amortised cost are deducted from the gross carrying amount of the assets. Except for the following, which are measured at 12-month ECLs.

- Bank balances for which credit risk (i.e., the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

When determining whether the credit risk of a Financial Asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

II) NON-FINANCIAL ASSETS

The carrying amounts of the Company's non-financial assets (other than inventories) are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated in order to determine the extent of impairment loss (if any). Where it is not possible to determine the recoverable amount of an individual asset, the Company estimates the recoverable amount of the Cash Generating Unit (CGU) to which the asset belongs. An impairment loss is recognized if the carrying amount of an asset or its CGU exceeds its recoverable amount. The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. The value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. Impairment losses are recognized in profit or loss. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognized. However, no such impairment was found in Financial Assets during the period for which the company needs to make provision for impairment.

3.13 FOREIGN CURRENCY TRANSACTION/TRANSLATION

Foreign currency transactions are translated into Bangladeshi Taka at the exchange rates ruling at the transaction dates according to IAS 21: "The effect of changes in Foreign Exchange Rates". Monetary assets and liabilities denominated in the foreign currencies are translated at prevailing rates on the balance sheet (Financial position) date. Nonmonetary assets and liabilities denominated in foreign currencies, which are related at historical cost are translated into Bangladeshi Taka at the exchange rate ruling at the date of transactions. Foreign exchange gain/loss (if any) has been recognized in connection with foreign currency transaction since all such transactions are in BDT/ US dollars (if import) and significant gains/losses even out during the course of company's business.

3.14 OTHER INCOME

All other income is recognized when the Organization's right to receive such income has been reasonably determined and all conditions precedent is satisfied.

3.15 EMPLOYEES BENEFITS

The Company has accounted for and disclosed employee benefits in compliance with the provisions of IAS 19: Employee Benefits. The cost of employee benefits is charged off as revenue expenditure in the period to which the contributions relate. The Company's employee benefits include the following:

A) SHORT-TERM EMPLOYEE BENEFITS

Short-term employee benefits include wages, salaries, bonuses, house rent, medical fees termination benefits etc. Obligations for such benefits are measured on an undiscounted basis and are expensed as the related service is provided.

B) CONTRIBUTION TO WORKERS' PROFIT PARTICIPATION FUND (WPPF)

This represents 5% of net profit before tax contributed by the Company as per provision of the Bangladesh Labour Act, 2006 (Amended up to 2018) and is payable to workers as defined in the said law.

3.16 FINANCE EXPENSES

Finance Expenses comprise interest expenses on loan, lease and bank charges. All borrowing costs are recognized in the profit or loss account using the effective interest method except to the extent that they are capitalized (If any) during the constructions period of the assets in accordance with IAS-23 "Borrowing Cost". The Company did not capitalize any Finance Expenses during the year.

3.17 EARNINGS PER SHARE (EPS)

The Company calculates its Earning per Share (EPS) in accordance with IAS 33 "Earnings per Share" which has been shown on the face of Statement of Comprehensive Income and the computation of EPS.

BASIC EARNINGS

This represents earnings for the year attributable to the Ordinary Shareholders. As there are no preference dividends, minority interest or extra ordinary items, the net profit for the period has been considered as fully attributable to Ordinary Shareholders.

BASIC EARNINGS PER SHARE

The company presents its Basic Earnings per Share (EPS) data for its Ordinary Shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the company by the weighted average number of Ordinary Shares outstanding during the year.

WEIGHTED AVERAGE NUMBER OF ORDINARY SHARES OUTSTANDING DURING THE PERIOD

The basis of computation of number of shares is line with the provisions of IAS-33: Earnings per Share. Therefore, the total number of shares outstanding at the period multiplied by a time-weighting factor, which is the number of days the specific shares, was outstanding as proportion of total number of days in the period.

DILUTED EARNINGS PER SHARE

No diluted earnings per share are required to be calculated per period, as there was no scope for dilution during the year.

3.18 RESPONSIBILITY FOR PREPARATION AND PRESENTATION OF FINANCIAL STATEMENTS:

The Management is responsible for the preparation and presentation of Financial Statements under Section 183 of the Companies Act, 1994 and as per the Provision of "The Framework for the preparation and presentation of Financial Statements" issued by the International Accounting Standard Board (IASB) as adopted by the Institute of The Chartered Accountants of Bangladesh (ICAB).

3.19 RISK EXPOSURE

FINANCIAL RISK MANAGEMENT POLICIES

The company's financial risk management is governed by direct monitoring its management. Company's Financial Assets include inter alia trade and other receivables, cash and short-term deposits that arise directly from its operations and Financial Liabilities include inter alia trade and other payables and loans and borrowings. The main purpose of these Financial Liabilities is to finance the company's operations. The Company's activities are mainly exposed to the following internal, external, quantitative, and qualitative risks from its use of Financial Instruments:

- i. Market Risk;
- ii. Credit Risk;
- iii. Liquidity Risk.

RISK MANAGEMENT FRAMEWORK

The management is responsible for the establishment and oversight of the company's risk management policies that are established to identify and analyzed the risks faced by the company, to set appropriate risks limits and controls, and to monitor risks and adherence to limits. Management discloses the exposures to risk and how they arise as well as its objectives, policies and processes for managing the risk and the methods used to measure the risk. The company has exposures to the following risks from its use of Financial Instruments.

MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

INTEREST RATE RISK

Interest rate risk is the risk that the fair value or future cash flows of a Financial Instrument will fluctuate because of changes in market interest rates.

CURRENCY RISK

The Company is exposed to foreign currency risk relating to purchases, which are denominated in foreign currencies. The company primarily utilizes forward exchange contracts with maturities of less than one year to hedge such Financial Liabilities denominated in foreign currencies. The forward exchange contracts entered into at the reporting date also relate to anticipated purchases, denominated in foreign currencies, for the subsequent period.

CREDIT RISK

Credit risk is the potential financial loss resulting from the failure of a customer or counterparty to settle its financial and contractual obligations to the company as and when they fall due. Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Credit evaluations are performed on all customers requiring credit over a certain amount. At the reporting date there were no significant concentrations of credit risk. The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the statement of financial position. However, due to a large number of parties comprising the group's customer base, Management does not anticipate material losses from its debt collection.

Total	8,984,494	11,266,696

LIQUIDITY RISK

Liquidity risk is the risk that the Company will not be able to meet its Financial Obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when become due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company ensures that it has sufficient Cash and Cash Equivalents to meet expected operational expenses, including Financial Obligations through preparation of the Cash Flow forecast, prepared based on timeline of payment of the Financial Obligation and accordingly arrange for sufficient liquidity/fund to make the expected payment within due date. Moreover, the Company seeks to maintain short-term lines of credit with scheduled commercial banks to ensure payment of obligations in the event that there is insufficient cash to make the required payment. The requirement is determined in advance through Cash Flows projections and credit lines facilities with banks are negotiated accordingly. Relevant non-derivative Financial Liabilities at the reporting date are as follows.

Particulars	Amount in Taka	
	30 June 2021	30 June 2019

FAIR VALUES

The fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. The fair value of trade and other short-term receivables are taken to approximate their carrying value. The fair value of financial assets and liabilities approximate their carrying value. Technical risks are those events or issues associated with the scope definition research and development (R & D), design, construction, and operation definition that could affect the actual level of performance vs, which specifies in the project mission need and performance requirements documents. Examples of technical risks include new and changing technology and changing regulatory requirements. Cost risk is the risk associated with the ability of the project to achieve the planned life-cycle costs. Thus, it includes both design/construction and operating costs. Two major elements of cost risk are (1) the accuracy and completeness of the cost estimates for the planned activities and (2) the risk that cost performance will be affected adversely by a failure to manage technical risks. An example cost risk would have all proposals for a significant contract come in over the estimated budget for that item.

Significant revenue generated from limited number of customers, losing any one or more of which would have a material adverse effect on the company. The company has not limited customers from whom it generates significant amount of revenue; it is almost free from this sort of risk.

Dependency on a single or few suppliers of raw materials, failure of which may affect production adversely: In business, having many suppliers of raw materials helps to get competitive advantage of cheaper price of raw materials. Because it helps to bargain over price with suppliers. In addition, having many suppliers help to maintain doing business efficiently. With this view, Asiatic Laboratories Limited is not dependent on a single or few suppliers.

More than 20% revenue of the company comes from sister concern, associate, or subsidiary: As we do not have any sister concerns, associate, or subsidiary, there is no risk related as such.

Negative earnings, negative cash flows from operating activities, declining turnover, or profitability, during last five years, if any- we have been operating our business efficiently. We are profitable entity and we have not experienced with negative earning and negative cash flow from operating for last few years.

Loss making associate / subsidiary / group companies of the company: We do not have any investment in subsidiary or associates.

Financial weakness and poor performance of the company or any of its subsidiary or associates: Sales is one of the key indicators of success of a business if there is good margin of profit. Asiatic Laboratories Limited has been experiencing with increasing sales growth, which is boosting up the profitability for last few years. Current and quick ratios are also in favour of the company.

Decline in value of any investment: We do not have any investment.

Risk associated with useful economic life of plant and machinery, if purchased in second hand or reconditioned: We are used to using new branded machineries. Hence, there is no chance to use second hand or reconditioned machineries.

Adverse effect on future cash flow if interest free loan given to related party or such loans taken from directors may recall: There is no as such loan given to related party or loan taken from directors.

Potential conflict of interest, if the sponsors or directors of the company are involved with one or more ventures which are in the same line of activity or business as that of the company and if any supplier of raw materials or major customer is related to the same sponsors or directors. There is common management with one or more ventures but business activities are not in the same here.

Related party transactions entered into by the company those may adversely affect competitive edge: There is no as such transaction, which may adversely affect competitive edge except director's remuneration and equity investment.

Any restrictive covenants in any shareholder's agreement, sponsors' agreement or any agreement relating to debt or preference shares or any restrictive covenants of banks in respect of the loan / credit limit and other banking facilities. There is no restrictive covenants in any shareholders' agreement, sponsors' agreement or any agreement relating to debt or preference shares or any restrictive covenants of banks in respect of loan or credit limit and other banking facilities.

Business operations may be adversely affected by strikes, work, stoppages or increase in wage demands by employees: We are habituated with the political unrest for long era and our business industries are used to dealing with this phenomenon. Asiatic Laboratories Limited is a profitable entity. Employee unrest is part of business, and it is important to deal with Labour unrest efficiently. We have different incentive packages for our employees so that they can be beneficial to such package. Because we believe that employees are very important part of our business, and we all know that there are government rules relating to paying minimum wage.

Seasonality of the business of the company: The business deals with pharmaceutical products of all kinds by manufacturing, selling, and distributing products throughout Bangladesh. We run our business throughout the year. Therefore, it is not seasonal business.

Expiry of any revenue-generating contract that may adversely affect the business: The Company has no long-term contract with their customers so not in risk of expiry of any revenue-generating contract.

EXTERNAL RISK FACTORS MAY INCLUDE AMONG OTHERS:

INDUSTRY RISK:

- i) **Environmental Issue:** Environmentalists are likely to create pressure on government to protect or banning those factories, which are not follow proper ETP, waste management solution, Air pollution etc. which are negative effects on living being and environment thereby causing closure of business of the company. We have a good setup for ETP and incinerator for waste management, a very good and sophisticated fire alarm system with integrated fire hydrant and firehouse arrangement with carbon dioxide fire extinguisher, dry powder and sand bucket. The company also strictly follows the laid down regulations for marketing the products and therefore does not foresee any problems in doing the business.
- ii) **Labour Unrest:** Any incident of Labour unrest will adversely affect the operation of the company. More importantly, the company's reputation in the industry and among its buyers will be affected. This may affect its financial performance in the end as well. The company values its employees and workers the most. It has established a very high standard of Labour practices compared to the overall industry. It has detailed human resources management policies encompassing employee recruitment, training, development, remuneration and retirement. Since inception, there has not been any instance of Labour unrest or strike at the company's factory premises. The rate of employee turnover and absenteeism has remained at negligible levels over the last few years.

ECONOMIC & POLITICAL RISKS:

- i) **Economic risks:** Our performance and growth are dependent on the health of the Bangladesh economy. The economy could be adversely affected by various factors such as political or regulatory action, including adverse changes in liberalization policies, social disturbance, terrorist attacks and other acts of violence or war, natural calamities, commodity and energy prices and various other factors. Any significant changes may adversely affect our business and financials. Bangladesh economy is booming for last few years. Consistent industrial growth along with increased pharmaceutical production has made the per capita income higher than that of recent years.
- ii) **Political risks:** Bangladesh is prone to serious unrest in the political condition which produces Strike, Road-Block and domestic terror attacks in Bangladesh could increase over the coming months, this could have an adverse impact on the country's economic growth prospects as investors, expatriates, and tourists may be deterred. During the last forty years of post-independence period, Bangladesh has gone through a variety of political situations. At present political situation is much stable in the country as the opposition is not much active in the field. Last democratic national assembly election and local council polls are instances of peaceful political situation in Bangladesh.

3.20 RISK AND UNCERTAINTIES FOR THE USE OF ESTIMATES IN PREPARING FINANCIAL STATEMENTS

Deferred tax arises due to temporary difference deductible or taxable for the events or transaction is recognized in the income statements. A temporary difference is the difference between the tax bases of an asset or liability and

it carrying amount/reported amount in the Balance Sheet. Deferred tax assets or liability is the amount of income tax recoverable or payable in the future period(s) recognized in the current period. The deferred tax liability/expenses do not create a legal liability/recoverability to and from the income tax authority. The revaluation does not affect taxable profits in the period of revaluation and consequently, the tax base of the asset is not adjusted. Hence, a temporary difference arises. This is provided for in full based on the difference between carrying amount and tax base. An upward revaluation is therefore given rise to a deferred tax liability. The effective current tax rate of the Company is provided as follows:

Corporate Tax applicable for the Company (as per Income Tax Ordinance 1984):

a) Tax Rate on Temporary Difference excluding revaluation	30.00%
b) Tax Rate on Temporary Difference of revaluation:	
WDV of Revaluation of Land	3.00%
WDV of Revaluation of other Assets	15.00%
c) Tax Rate on Income (Local)	30.00%
d) Tax Rate on Income (Export)	15.00%

A provision is recognized if, because of a past event, the company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefit will be required to settle the obligation.

3.25 CONTINGENCIES

Contingencies arising from a claim, litigation assessment, fines, penalties etc. are recorded. It is probable that a liability has been incurred and the amount can be measured reliably in accordance with “IAS 37: Provisions, Contingent Liabilities and Contingent Assets”.

3.27 VALUE ADDED TAX

Value Added Tax on Company’s Products is 15% except export.

3.28 OPERATING SEGMENTS

No segmental reporting is applicable for the company as required by “IFRS-8: ‘Operating Segments’ as the company operates in a single industry segment and within as geographical segment.

3.29 ADVANCE, DEPOSITS AND PREPAYMENTS

Advances are initially measured at cost. Since initial recognition, advances are carried at cost fewer deductions, adjustments, or charges to other account heads such as Property, Plant and Equipment, inventory, or expenses. Deposits are measured at payment value. Prepayments are initially measured at cost. After initial recognition, prepayments are carried at cost less charges to Statement of Profit or Loss and Other Comprehensive Income.

3.30 CASH AND CASH EQUIVALENTS

According to IAS -7 “Statement of Cash Flows” cash comprises cash in hand, demand deposit and cash equivalent which are short-term highly liquid investments that are readily convertible into cash, and which are subject to an insignificant risk of change balances and call deposits, Bank Balances in Value. IAS -1 “Presentation of Financial Statements” provides that cash and cash equivalents are not restricted in use. Consideration the provisional of IAS-7 and IAS-1, Cash in Hand and Bank Balances has been treated as Cash and Cash Equivalents.

3.31 OTHER CURRENT ASSETS

Other current assets (if any) have a value on realization in the ordinary course of the company’s business which is at least equal to the amount at which they are stated in the Statement of Financial Position.

3.32 SOURCES OF INFORMATION

During our course of preparation and presentation of the Financial Statements, it has been considered the relevant financial documents and collected information throughout the accounting period ended 30 June 2021 after overlooking of the head of accounts.

3.33 LEASES

At the commencement of the lease term, recognize leases as assets and liabilities in their statements of financial position at amounts equal to the fair value of the leased property or, if lower, the present value of the minimum lease payments, each determined at the inception of the lease. Any initial direct costs of the lessee are added

to the amount recognized as an asset. Minimum lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent rents are charged as expenses in the periods in which they are incurred. A finance lease gives rise to depreciation expense for the recognized lease assets as well as finance expense for each accounting period.

3.34 BAD AND DOUBTFUL DEBTS

The Management recognized the bad and doubtful debts when a debt is unrecoverable through Board of Directors approved. Since, the management made sales through 100% confirms order by the customers and duly collected by the marketing team. Hence, no bad debts had occurred and therefore no provision was made against the receivables.

3.35 PROMOTIONAL EXPENSES

All costs associated with promotional activities are charged in the period they were incurred.

3.36 IMPLICATION OF COVID-19 ON OUR BUSINESS:

The COVID-19 pandemic has development rapidly in 2020. The resulting impact of the virus on the operations and measures taken by Bangladesh Government to contain the virus has negatively affected the group's results in reporting period. Covid -19 is not expected to have a significant impact on the entity. Management has determined that there is no material uncertainty that casts on the entities to continue as a going concern. It expects that COVID-19 might have some impact, though not significant, for example, in relation to expected future performance, or the effects on some future asset's valuation. There were no significant difficulties in meeting room covenants based on aroused COVID-19 situation and the company managed to meet all obligation for the reporting period.

8.00 Inventories

Valuation of Inventory and physical stocktaking

The management of the Company takes physical stocks periodically and valuation of stocks were made accordingly considering the wear and tear of the assets as follows:

- The valuation of closing inventory has been made based on lower of cost and net realizable value as per IAS-2.

ii) The management of the Company has conducted physical verification/stock taking of inventories on 30.06.2021.

Inventories consisting of raw materials, work in progress, finished goods are valued at lower of cost and net realizable value as per IAS 2: Inventory. Cost of inventories include expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. Cost of inventories is determined by using the weighted average cost formula. Where necessary, allowance is provided for damaged, obsolete and slow-moving items to adjust the carrying amount of inventories to the lower of cost and net realizable value as the board approve from time to time. Net realizable value is based on estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Impairment of Inventories

Impairment of inventory is made as and when inventory became obsolete or unusable or for slow moving items for which the management of the company is giving decisions from time to time. Based on sales cycle of slow-moving items, the sales prices of the products may decrease over time. The management of the Company reviews the carrying amounts of its inventory (Balance Sheet Date) to determine whether there is any indication of impairment in accordance with IAS-2: 'Inventories'. When the sales price moves below the inventory cost prices, the loss on sales is recognized immediately in the Financial Statements. However, there was no indication of impairment of inventory during the year; and as such, no adjustment was given in the Financial Statements for impairment.

**** blr-Bank Loan Rating**

Financial Based on-Audited financial statement up to 30 June 2021.

Methodology: Corporate rating methodology published on the WCRCCL website at www.wasocreditrating.com

RATING RATIONALE

WCRCCL has assigned 'A3' (pronounced as Single A Three) rating for the Long Term and 'ST-3' (pronounced as Short Term Three) rating for Short Term to **Asiatic Laboratories Limited** (hereinafter referred to as 'ALL' or 'The Company') based on its financial and other relevant qualitative and quantitative information up-to the date of the rating issuance. WCRCCL has also assigned "blr A3" (pronounced as Bank Loan Rating Single A Three) rating to the long term loan outstanding and "blr ST-3" (pronounced as Bank Loan Rating Short Term Three) rating to the aggregated short term limit.

The above ratings have been assigned based on the fundamentals of the company which include experienced and proactive management, increased trend of revenue, sponsors have related experience, moderate regional diversification, moderate diversified product portfolio, low leverage position in the capital structure, good interest coverage position, comfortable security arrangement, presence of fire insurance policy, good infrastructural arrangement and satisfactory banking relationship.

However, the above factors are constrained to some extent by average disclosure in the financial statement, market saturation or high competition, stressed liquidity position with long cash conversion cycle, price volatility of the raw materials, high inventory pile-up affecting working capital.

The long term rating implies that the company rated upper medium grade and subject to low credit risk. The short term rating implies that the company has an acceptable ability to repay short term debt obligations from internal sources. However, it is expected to rely on external sources of committed financing due to downturn in economic or industry circumstances.

WCRCCL also viewed the company with "Stable" outlook and believes that ALL will be able to maintain its good fundamentals in the foreseeable future.

Risk Factor Analysis

Operational Risk

Maintaining a decontaminated premise along with temperature and humidity are the most critical factors for the company. If such environment is disturbed, the quality and effectiveness of the medicine can deteriorate significantly.

Market Risk

The market of pharmaceutical products is highly competitive in Bangladesh with several big players and many small and medium companies competing for market share. The top 20 players dominate the major portion of the market, holding 86.33% market share, remaining 13.67% market share to other existing companies. Additionally, the pharmaceuticals industry because of its importance in the economy is continuously monitored and guided by the government

providing different supports. However, the market potential for the industry is still huge as many of the companies lacks proper R&D facilities and investments.

Compliance Risk

The Directorate General of Drug Administration (DGDA) is drug regulatory authority of Bangladesh, which is under the Ministry of Health and Family. DGDA regulates all activities related to import and export of raw materials, packaging materials, production, sale, pricing, and license registration of all kinds of medicine. The National Drug Policy (2005) states that the WHO's Current Good Manufacturing Practices (CGMP) should be strictly followed and that manufacturing units will be regularly inspected by the DGDA. Any violation of the rules and regulations or standards set by the authorities would bring adverse effect upon Asiatic Laboratories Limited as failure to ensure CGMP and section 15(2) of The DRUG (Control) Ordinance, 1982, can lead to the cancellation of the company's Drug Manufacturing License.

Quality Control Risk

The quality of medicines can highly influence the marketability of the pharmaceuticals. Any glitch in quality can harm the consumer of the medicine, which would act as a negative marketing factor and destroy the market reputation of the company. As a result, the company has to be very careful about the quality of the products.

Interest Rate Risk

The interest rate is volatile in Bangladesh financial sector because of shortage of free cash flow in banks or financial institutes. But, ALL has taken loan from ONE Bank Limited, Hajj Finance Limited and Fareast Finance & Investment Limited. So, the change in the interest rate has significant impact on the interest rate risk for this company.

Political Risk

All types of business activities always remain in positive trend when there is political stability in the country. A country like Bangladesh is always on risk due to political instability and disruption. So, the company always has the similar some political risk as it faced by the other industry in similar footing.
